

12–13 December 2018

Royal College of Anaesthetists, London

Clinical Content Leads: Dr Lucy Williams and Dr Helgi Johannsson

#RCoAWinter

10 CPD credits

Innovation is the theme for this year's Winter Symposium and the varied programme will feature a mix of lectures, short updates and debates with the addition of airway workshops to refresh your FONA and fiberoptic techniques.

Experts will bring you up to speed with recent changes in practice and explore what the next five years may bring.

Sold out in 2016 and 2017 – book soon to avoid disappointment

With 5 CPD credits per day, the Winter Symposium will provide you with food for thought for your own personal development, offering the chance to learn and interact with the experts whilst networking with delegates from all areas of the profession.

Programme: Wednesday 12 December 2018

16.40-16.55	Q&A session		

***AIRWAY WORKSHOPS**
Thursday 13 December 2018

The Airway Workshops will run alongside the Winter Symposium lectures on Thursday 13 December with two sessions:

Session 1: 0900–10.30

Session 2: 1100-12.30

Numbers will be limited. Please secure your place at time of booking event.

Both workshops will provide you with hands-on experience using a variety of airway equipment and the chance to learn core airway management techniques in a small group teaching environment.

Each workshop will cover front-of-neck access (FONA) and fiberoptic techniques and delegates will spend 45 minutes at each station with plenty of time to practice and ask questions.

****SAS Update and networking**
Thursday 13 December
MR2 Meeting Room (2nd Floor)

****SAS Update and networking**

Dr Kirstin May will host an informal meeting of SAS Doctors to discuss recent updates and provide a networking facility for fellow SAS colleagues. There will also be a short presentation.

Please register your interest for this at time of booking.
